Attack with Black
Valery Aveskulov

● **Examines all White's options after 1 d4 Nf6, and gives an aggressive reply to each of them**

● **An extraordinary wealth of new analysis and ideas**

● **Never willing to take existing theory on faith**

Sick of defending with Black? Never found a reliable way to fight for the initiative when White plays 1 d4? Aveskulov has put together a sound but ultra-aggressive repertoire based on gambits that have proved their worth in grandmaster play over many years. The Benko Gambit is dreaded by many 1 d4 players. Black gets very active piece-play, and even if White reaches a pawn-up endgame, he is often shocked to find he is worse due to Black's intense positional pressure! If White avoids the Benko, that's when we hit him with the Blumenfeld, sacrificing a pawn to set up a strong pawn-centre and attacking chances.
