Bored with the same old openings? Worried about having to learn too much theory? Then this book will come as a godsend. Aaron Summerscale presents a set of exceptionally dangerous opening weapons for White. Each recommended line is based on a solid positional foundation, yet also promises long-term (and short-term!) attacking chances. The variations are not just easy to learn and play, but they also set Black complex problems. For this new edition, the publishers enlisted the help of hotshot opening writer Sverre Johnsen, who has updated the coverage where necessary, while retaining the spirit, charm and aims of Summerscale's original work. The killer repertoire remains easy to learn, and is now more dangerous than ever!
