

Secrets of Pawn Endings

Karsten Müller & Frank Lamprecht

- The definitive modern work on pawn endings
- By the authors of the classic *Fundamental Chess Endings*
- Logically organized in user-friendly fashion

GAMBIT

This book provides a thorough course in endings with just kings and pawns, from the simple to the highly complex. Armed with this knowledge, the reader will also be able to tackle other types of endgame with greater confidence and certainty.

Many interesting and beautiful positions are included, and there are test positions for the reader to solve. The authors follow the rigorously logical conventions introduced by John Nunn in his famous series of endgame manuals. This has necessitated a phenomenal amount of new analysis of theoretical positions to assess precisely the merits of each and every move.

This is a comprehensive and authoritative guide to the most fundamental type of endgame.
